## Message from the In-charge

*Happy New Year 2023!*

As we approach the penultimate session of the year, I am heartened to see the learners making confident strides in domains of self-awareness, self-esteem, social and communication skills. They are more verbose, articulate, mindful and connected with their surroundings and environment compared to the time they first joined. It is our endeavor to prepare our learners for the future, equipping them with necessary and right knowledge, skills, attitude and values, while making this overall journey of learning and discovery interesting and enriching.

This term is also for reflection and introspection for all, to review our achievements and strategies, to check and ensure that our students are on track and ready for new learning adventures.

At LPW, we place great value on seeing that our students continue to share success in developmental milestones, make academic progress, and build social emotional competencies as they move through their journey of learning and discovery in these foundational years.

We are committed and exhilarated to begin our work for the closing term of the school year and look forward to your contribution and support in giving the very best to our children.

Warm Greetings!

Dr. Renuka Rawat

# Sneak Peek of the Month

## SOIL MYSTERY

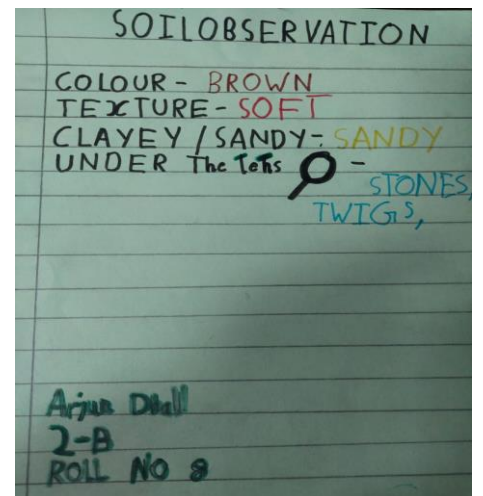

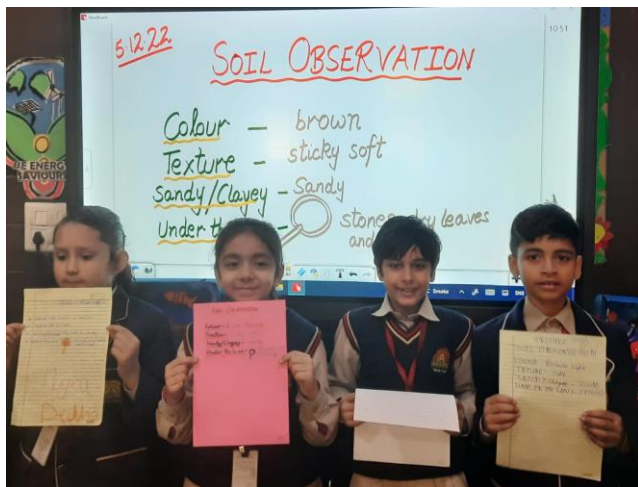

To commemorate and to acknowledge the crucial role of soil in ensuring food security and that soil erosion is a global concern.

World Soil Day was celebrated enthusiastically on 5th Dec' 22 at ASN Lower Primary Wing. With 'Caring for the planet starts from the Ground' being the theme wherein students were shown a video clip and a soil day song as a means to focus on the importance of healthy soil and to spread environmental consciousness and develop empathy towards nature. Moreover, students planted a seedling and observed soil on the basis of its texture, colour and type. The day was celebrated to make sure that future generations understand the gravity of this issue and how they can make a positive impact through their own actions and behaviours.

## MATHS FAIR

ASN Lower Primary Wing organised Math fair to celebrate national mathematics day, commemorating birth anniversary of legendary Indian mathematician Srinivasa Ramanujam. The Fair consisted of exciting floor games on number concepts, engaging activities like Symbola Tambola, Triangle Hunt, Pattern making, Number wheel, Cool counter and many more, brilliantly highlighting how mathematics can be engaging and hands-on. Wonderful display of students' work and their confident demonstration of concepts to parents and visitors was highly praised by school principal Ms Luthra.

It was indeed a day filled with fun and entertainment and celebration of mathematical skills and competencies of young learners.

**“ROAD SAFETY WEEK”** was celebrated by Lower Primary wing to make students aware of traffic rules and safety measures that we should follow on road. Students were sensitized to the issue of road safety and to spread awareness to ensure that India’s roads can edge closer to becoming a completely accident- free zone. The week was aimed at raising awareness about traffic rules and ultimately, to reduce casualties due to road accidents. To enlighten students on road safety signs, significance of traffic light, driving rules and cautions.

Adding to it, in order to sensitize students more about the road safety and the importance of following safety rules, ‘Clay Modelling’ and ‘E-drawing’ on Microsoft paint was also done to depict various traffic signs and symbols.

## FIT INDIA CAMPAIGN

In cognizance with Fit India campaign, fitness week was organized in the LPW wherein various activities - Yoga, Meditation and Physical fitness for Self-care, FIT India Quiz, PEC & Free Play Activities were organized to engage students and to promote awareness about physical fitness and wellbeing. Moreover highlighting the importance of sports in everyone's life.

Earth - the planet which provides all the resources for all the living being to live and sustain. We are sharing this planet with animals, and it is time that we should learn the diversity of the planet and explore different habitats like forest, mountains, ocean, and deserts. In order to understand the significance of diversity and recognising the fact that various plants and animals have specific needs and live in special homes, the students of LPW created the animal diorama. Students designed beautiful dioramas using old waste products and spoke about the different types of animals and their habitat. It was indeed a pleasure for eyes to see the young learners engrossed in exploration and research task to create their animal diorama.
